ACTION REQUIRED: Approval of Visit by Alias BERNHARDT and/or  
@CASTROP to Headquarters [ ]

REFERENCE : EGMA-70340, dated 4 May 1967

1. In line with their current reactivation of old security leads, @BERNHARDT and @CASTROP have sent us a lengthy analysis of the Roman KORZENIOWSKI case which will reach Headquarters shortly.

2. In giving us that material @CASTROP of CATUSK commented that CATUSK is currently reopening a number of security investigations which were under way before the arrest of UJDROWSY but were lost in the frantic activity generated by the UJDROWSY affair, or had to be dropped for lack of investigative potential at that time. In line with these efforts CATUSK is now checking out some old security leads such as those provided by [ ] They are very much interested in these unresolved leads. At the moment their efforts are concentrated on those cases involving current staff members and those with close connections to staff members. As stated in Reference C @BERNHARDT and @CASTROP believe that the most effective manner to pull together the loose ends, to get a clear picture of what is really still valid information on which to build a new investigation would be a visit to WOFAC Headquarters to discuss some of these neglected security cases and to check further into the [ ] leads and the "FALL HACKE".

3. Another comment made by @BERNHARDT in that connection was that he was planning to really follow through on these investigations "let the chips fall where they may" and "we will complete the job this time even if it should reach the top levels of the Organization". BERNHARDT's effort. has UTILITY's blessing, at least in principle. He told [ ] recently that UTILITY had already approved the funds for the proposed visit to Headquarters. It was [ ] impression that BERNHARDT is planning these investigations now because he is aware that within less than a year there will be a new chief, and he hopes to complete the job at that time when he may in fact get specific authority to reach "into the highest levels of the Organization".

4. We feel that if such a new approach to CATUSK security is ever to be made now is the time it may succeed and we should give @BERNHARDT all the aid he needs. We would therefore be greatly interested in an early reply to BERNHARDT's request.
